Resourceful unto the World

Summer 2008

Preparations for Production

We seem so close yet still have a number of tasks to complete before vegetable processing and dehydration can begin. More equipment is on order from various places in Canada and is expected to arrive soon. Connections are being made every week with people who have equipment, vegetables or skills available for the project. We will be installing work tables, shelving and counters at the facility in July. If anyone in the Medicine Hat area is available on a Saturday and would like to help with some of the construction, set-up or painting you can show up to the Gleaners facility at 9:00 AM.

Visit to the Okanagan

Four of our Board members were able to make a quick visit to the Okanagan Gleaners in Oliver this past month. We have greatly appreciated the advice and encouragement from our friends in Oliver, B.C. This visit was once again a time to consult about equipment set-up and processing methods. As always, they had a lively and dedicated group of volunteers on site, carrying on the work of food aid production.

1st Annual Prairie Gleaners Bike Run

24 riders spent 4 days riding through 2 provinces and 2 states, enjoying God's country and each other's company while raising some funds for the Prairie Gleaners. Plans are already in place for another ride next year. Thanks to all who participated!

The Prairie Gleaners accepts its mandate from **Isaiah 58:10** - *If you give food to the hungry and satisfy those who are in need, then the darkness around you will turn to the brightness of noon.*
